

Saif Ali Khan

MERN Full Stack Developer — AWS Cloud

Mau, Uttar Pradesh, India · hasansaifkhan0@gmail.com · +91-9335164488 · saifalikhan.in

Results-oriented MERN Full Stack Developer with hands-on experience building, optimizing, and deploying scalable web applications in live production environments. Proficient in React.js, Node.js, Express.js, MongoDB, and AWS Cloud services including EC2, Lambda, Amplify, S3, and Route 53. Ships secure RESTful APIs, JWT/RBAC authentication, and CI/CD pipelines end to end.

I EXPERIENCE

Digivahan

Apr 2026 – Present

Full Stack Developer

- Solely designed, developed, and deployed the company's public-facing website end-to-end — UI design to production launch on AWS EC2 with Route 53 DNS.
- Single-handedly built and manages the entire mobile app backend — RESTful APIs, JWT authentication, RBAC, and OTP-based login flows.
- Deployed and maintains the backend on AWS EC2; configured S3 for media storage and CI/CD via GitHub Actions.
- Owns MongoDB schema design and query optimization under real user load, plus production monitoring and incident response.

Travel Grow India Pvt. Ltd.

Apr 2025 – Mar 2026 · 1 yr

Full Stack Developer

- Built and maintained scalable MERN applications deployed in live production, serving real users.
- Designed secure RESTful APIs with JWT authentication and RBAC for multi-role user management.
- Managed AWS infrastructure — EC2, S3, Route 53 DNS routing, and CI/CD pipelines via GitHub Actions.
- Shipped Shimmer UI, lazy loading, and code splitting — ~20% lift in operational efficiency and engagement.

II SELECTED WORK

Digivahan — Company Website

React.js, Node.js, AWS EC2, Route 53

Built and launched the full company website from scratch — UI, frontend, backend integration, and production deployment, solo.

Digivahan — Mobile App Backend

Node.js, Express.js, MongoDB, AWS

Architected and built the entire backend for the Digivahan mobile app, single-handedly — 30+ REST endpoints, JWT + OTP auth, RBAC.

Travel Grow — Agent Management Platform

MERN Stack, AWS EC2, Route 53

End-to-end features for a travel leads and agent management system — RBAC, third-party API integrations, ~20% efficiency gain.

Doctora — Healthcare Management System

React.js, Node.js

Contributed frontend and backend modules in a team environment — real-time features, deployment-ready components.

III AREAS OF EXPERTISE

Languages	JavaScript (ES6+), TypeScript, Java (Core), Python (Basic)
Frontend	React.js, Next.js, Redux Toolkit, Tailwind CSS, Shadcn UI, HTML5, CSS3, Bootstrap
Backend	Node.js, Express.js, RESTful APIs, JWT Auth, OTP, RBAC, MVC Architecture
Database	MongoDB, Mongoose, PostgreSQL, SQL, Schema Design, Data Validation
AWS Cloud	EC2, Amplify, Lambda, Route 53, S3, IAM, CloudWatch
DevOps / CI-CD	GitHub Actions, CI/CD Pipelines, Build Optimization, Prod Deployment

IV EDUCATION & CERTIFICATIONS

2024	Bachelor's Degree, Graduation Maharaja Suhel Dev State University
2021	Senior Secondary (12th) — 72% UP Board
2019	Secondary (10th) — 83% UP Board
Cert	Diploma in Software Technologies Coders Academy — industry-focused MERN training with live projects
Cert	MERN Stack Development Live Projects & Practical Training

Languages · English (Professional Proficiency), Hindi (Native)
